TO READERS OF THE ATTACHED CODE-SHARE LIST:

The U.S. Air Carrier Licensing Division's code-share list is an informal compilation of code-share relationships. As such, it does not represent a complete compilation of all code shares. New code-share relationships are continually being negotiated, and the ones reflected in the attached listing may or may not be still in place or be of a continuing nature. Similarly, the list may not reflect all existing code shares of a particular type, or all existing types of code shares. This list is not an official document of the Department of Transportation and, accordingly, should not be relied upon or cited as such.

NOTE: THIS LIST IS COMPRISED OF ONLY THOSE CARRIERS WHOSE CODE-SHARE RELATIONSHIPS ARE OF A NEW OR CONTINUING BASIS. DORMANT CODE-SHARE RELATIONSHIPS TO THE EXTENT KNOWN HAVE BEEN DELETED.

Block descriptions of certain code-share arrangements approved for the same term may have been compressed into one block description to conserve space. If the authorities are not new or changed, but only compressed, the compressed descriptions will not appear in bold type. Carriers must notify the Department no later than 30 day before they begin any new code-share service under the code-share services authorized.

This report is current through December 31, 2014. Changes from the previous reports are noted in bold type.

Please note that the code-share report (in adobe format) is accessible from the DOT web site at the following address:

http://www.dot.gov/policy/aviation-policy/licensing/code-sharing

- ✓ **Go to International Issues**
- ✓ **Scroll Down and Select Code Shares (Authorization, Safety and Report)**
- ✓ **Scroll to the end of the paragraph and select list of all code shares**

TYPE 1 SERVICE BEHIND U.S. GATEWAY

Foreign carrier operates its own service between homeland and a point in the United States; U.S. carrier transports foreign carrier passengers within United States--code share is on U.S. domestic leg.

Partners	Codeshare Market
