TIFIA 49 - Special Financing for Transit and Transit-Oriented Development

Build America Bureau Financing Opportunities
The U.S. Department of Transportation’s Build America Bureau can finance transit and transit-oriented development (TOD) projects that improve or construct public infrastructure or advance economic development. TIFIA 49 makes transit and TOD projects eligible for loans up to the maximum level permitted by law through the Transportation Infrastructure Finance and Innovation Act (TIFIA) program (49 percent of total costs whereas most other projects are eligible for TIFIA loans up to 33 percent):

- Transit projects are those eligible for assistance under Chapter 53 of Title 49, U.S. Code, i.e., projects eligible for FTA funding, such as capital projects or associated improvement infrastructure or vehicles for public transportation systems, including but not limited to bus, subway, light rail, commuter rail, trolley, or ferry, etc.

- TOD projects are those eligible for assistance under 23 U.S.C. § 601(a)(12)(E), i.e., projects to improve or construct public infrastructure that are either (1) located within walking distance (approximately 1/2-mile) of, and accessible to, a fixed guideway transit facility, passenger rail station, intercity bus station, or intermodal facility, including transportation, public utility, or joint development projects, and related infrastructure; or (2) for economic development, including commercial and residential development, and related infrastructure and activities.

TIFIA Federal Requirements, Terms and Conditions
Projects must be at least $10 million in size and may borrow up to 49 percent of eligible project costs. Projects must comply with applicable federal regulations and policies associated with federal funding programs. TIFIA has favorable terms including low interest rates (Treasury rate), interest does not accrue until proceeds are drawn, flexible amortization, up to 35 year repayment period (Bipartisan Infrastructure Law allows up to 75 years for some projects), deferrable for five years after substantial project completion and no pre-payment penalty.

Denver Union Station

ABOUT the BUREAU
The Bureau advances investment in America’s transportation infrastructure with low-interest, long-term loans:

- Lending Federal funds to qualified borrowers
- Clearing roadblocks for credit worthy projects
- Encouraging best practices in project planning, financing, and delivery
- Fully using available lending capacity while protecting taxpayer resources

We’re Easy to Reach!
Build America Bureau staff is able to provide technical assistance for transit or TOD projects exploring TIFIA, public-private partnerships, or any other kind of innovative finance.
