

How can I find the state, county, tract number, block group number and other geographic information of a particular address?

Data.census.gov does not have an address search feature available. However, you can access geographic information, such as the state, county, tract number, block number, and block group number, about a particular address using the Census Geocoder.

The Geocoder can be accessed at

<https://geocoding.geo.census.gov/geocoder/geographies/address?street=&city=&state=&zip=&benchmark=4&vintage=410>

Step 1: Select Address under "FIND GEOGRAPHIES USING..." OPTION.

The screenshot shows the Census Geocoder interface. On the left, there are two main sections: "FIND LOCATIONS USING..." OPTION and "FIND GEOGRAPHIES USING..." OPTION. Under "FIND GEOGRAPHIES USING..." OPTION, the "Address" option is highlighted with a red box. On the right, the "Find Address Results" section contains input fields for Street, City, State, Zip, Benchmark (set to Public_AR_Current), and Vintage (set to Census2010_Current). A "FIND" button is located at the bottom of this section.

Step 2: Enter the street address.

The screenshot shows the same Census Geocoder interface as Step 1, but now the "Find Address Results" section is populated with the following information: Street: 1600 Pennsylvania Ave NW, City: Washington, State: DC, Zip: 20500, Benchmark: Public_AR_Current, and Vintage: Census2010_Current. A red box highlights the Street, City, State, and Zip fields.

U.S. Department of Transportation

RAISE Transportation Grants

Step 3: Hit FIND.

"FIND LOCATIONS USING..." OPTION	Find Address Results
One Line	Street : 1600 Pennsylvania Ave NW
Address	City : Washington
Address Batch	State : DC
"FIND GEOGRAPHIES USING..." OPTION	Zip : 20500
One Line	Benchmark : Public_AR_Current ▼
Address	Vintage : Census2010_Current ▼
