

**Carrier:**

American Airlines

**Flight Number:**

374

**Date & Time of Incident:**

12/10/2021 12:00 AM

**Type of Incident:**

Death

**Description of Animal:**

Breed: Cavalier King Charles Spaniel

**Animal Name:**

Camp

**Description of Incident:**

On Friday, December 10, 2021, 03:36 CST, one female Cavapoo puppy (Camp) was dropped off by Augustus Brazel, representative of Ozark Mtn Puppies, at the American Airlines Cargo Facility in St. Louis, MO (STL), for air transport under air waybill 001-58502603. The puppy was scheduled to travel to Orlando, FL (MCO), with a connection in Miami, FL (MIA), flights AA0374/10-Dec STL-MIA (etd 06:00 eta 09:45) and AA0649/10-Dec MIA-MCO (etd 10:35 eta 11:53). At approximately 11:50 (EST), after arrival at Orlando, FL (MCO), notification was received that Camp was extremely lethargic and only semi responsive. She was transported to Nona's Ark Animal Hospital in Orlando, FL for immediate medical attention. She was treated for hypoglycemia and hypothermal, in critical condition. At approximately 15:00 (EST), while still under veterinary care, Camp passed away. The deceased puppy's remains were appropriately packaged and transported to Dallas/Fort Worth, TX, (flight AA2490/10-Dec MCO-DFW) for necropsy services.

**Cause of Incident:**

Necropsy indicated that tissue tested at Texas A&M veterinarian laboratory indicated broncho interstitial pneumonia. A viral etiology was suspected, and PCR testing came back with a positive result for canine parainfluenza virus. As a result, the cause of death was a result of a viral infection resulting in Pneumonia.

**Corrective Action Taken:**

Incident was not a result in carrier negligence

**Carrier:**

American Airlines

**Flight Number:**

675

**Date & Time of Incident:**

12/30/2021 12:00 AM

**Type of Incident:**

Injury

**Description of Animal:**

Breed: German Shepherd Dog

**Animal Name:**

Bailey

**Description of Incident:**

Ramp discovered blood on pet and around kennel. Upon further inspection, dog was found to be bleeding in the corner of the mouth.

**Cause of Incident:**

There was a metal dish bowl holder that was provided for transit and probably a factor that caused the bleeding in the mouth from Bailey chewing on it. The customer was notified regarding pet being taken to vet for a checkup and re-booking to earliest flight

**Corrective Action Taken:**

Dog was taken to Veterinarian Joy Lynn M. Yasuda for evaluation. Vet cleared dog for travel to continue on to PHX. Owner was contacted and advised of incident after arrival into PHX
