# 1. OVERVIEW

## 1.1 Background

The Department of Transportation, Transportation Services Division (TRANServe), administers the Parking and Transit Benefits program. This system will serve as the publicly accessible interface for managing Transit benefits. TRANServe Services include purchasing and distributing transit fare media through the TRANServe Debit Card via Economy Act agreements and the authority of the Administrative Working Capital Fund (49 U.S.C. 327). The office currently supports 276 Agencies and sub-divisions, proving timely and efficient transit benefit service to over 200,000 customers, 60,000 of whom use the online Transit Application.

TRANServe has redesigned the current Transit Web Application into a “new” user friendly, mobile site designed specifically for mobile devices. The mobile version of the Web Application has been optimized for smaller screens found on mobile phones and tablets. This will allow federal government workers to apply for the transit benefit, request information, withdraw from the program and recertify using a mobile device. Further, TRANServe TBMs, Admins, first, second, and third level approvers will be able to view, update, approve, or disapprove applications from a mobile device from anywhere and at any time.

## 1.2 Purpose

The Transit Benefit Application user guide is designed to provide written instruction on how to use the application effectively and efficiently.

## 1.3 Document Organization

The following typographical conventions are used in this user guide:

- **Courier New Bold** Indicates a button on a page
- *Underline Italic in blue* Indicates a link within the system
- Title Case plus page Indicates a name of a page in the application
- *Italic text* Indicates a note on a page in the application

## 1.4 Point of Contacts

The table below provides a list of the people you may contact for additional information regarding the Transit Application or for troubleshooting purposes.
