Hi everyone,

Thank you to those of you who attended the webinar today on the SMART Implementation Reports and Program Updates. The full recording and slides from the webinar will be posted to the SMART website as soon as they are available. I have also attached the slides to this email.

Key takeaways from the webinar:
- The Implementation Report Guidance is available and is your best resource for preparing your Draft and Final Implementation Reports: Grants Management | US Department of Transportation
  - We have also published a list of resources that may support you in preparation of the reports, on the same webpage.
- All Draft Implementation Reports are **due 12 months from the date you signed your grant agreement**
- Final Implementation Reports are due **at the end of your period of performance** (18 months, or more, if you are granted an extension).
- The Stage 2 NOFO will be released this summer. **The Draft Implementation Report will be an important consideration in the Stage 2 NOFO application and evaluation**.

Other key program updates we discussed:
- Quarterly Reports for the period ending 3/31/24 are due **tomorrow by 5pm ET**
- The Summit Agenda is now live on the registration page.
- Every Summit attendee should submit **their own registration individually**. Registration is due by **June 3rd, 2024**
- We also shared new cybersecurity resources that may be of interest to some of you:
  - New Transportation Cybersecurity Course (self paced, free): https://fhwanhi.geniussis.com/RegistrationByCourse.aspx (search for course by catalog number: NHI 137055)
  - USDOT ITS Cybersecurity Research Program
  - Cybersecurity searchable glossary: CyberGlossary (dot.gov)

Let me know if you have any other questions, and have a great week.

Best,
Madeline
