The Honorable Elizabeth Warren
Ranking Member
Committee on Banking, Housing
& Urban Affairs
U.S. Senate
Washington, DC 20510

Dear Chairman Scott and Ranking Member Warren:

On behalf of the American Council of Engineering Companies of New York, I am writing in support of the nomination of Marc Molinaro as Administrator of the Federal Transit Administration.

ACEC New York is a proactive coalition representing nearly 300 member firms who engage in every discipline of engineering related to the built environment including civil, structural, mechanical, electrical, environmental, acoustical, and geotechnical. We are a diverse group of consulting engineering firms from across New York State, ranging from sole proprietors to multinational corporations that collectively employ over 33,000 New Yorkers and nearly ten times that number worldwide.

We have known and worked closely with Congressman Molinaro for several years during his time in the New York State Assembly, as a county executive, and as a Member of Congress. He is a dedicated public servant who consistently sought to meet the needs of his constituents. His depth and mastery of public transportation and its myriad issues is truly impressive.

As a county executive, Marc had direct experience with advancing solutions to local transportation and infrastructure challenges. As a member of the House Transportation & Infrastructure Committee during his tenure in Congress, Marc sponsored and supported conservative, pragmatic, and bipartisan transportation policies.

Congressman Molinaro is eminently qualified for this role. We urge the committee to quickly approve his nomination and advance his confirmation through the Senate.

Thank you for your attention and consideration.
