INTRODUCTION

This report contains tables and charts on the financial condition of the U.S. Passenger National airlines, defined as Large Certificated Air Carriers with annual operating revenues from \$100,000,001 to \$1,000,000,000. All data presented in this financial and traffic review are derived from Form 41 Schedules reported to the U.S. Department of Transportation by Large Certificated Air Carriers.

The data are presented on both a carrier group and an individual carrier basis, but the primary focus is on individual carrier system entity performance. Data are presented for the most recent quarterly period compared to the prior year's quarter, as well as for the 12-month ended period for the five most recent quarters. A graphic presentation of comparative trends on a carrier group basis is made for several unit and overall financial indicators.

TECHNICAL NOTES

In the case of merged carriers, data for the carriers involved have been combined and presented under the name of the surviving carrier so that meaningful (pro forma) comparisons can be made. See report endnotes for further information regarding timing of mergers.

In some instances, a metric in the individual carrier report will show a symbol. Please see the endnotes for a glossary of symbols.

The air carrier group definitions used to categorize Large Certificated Air Carriers are as follows:

- Majors: Air carriers with annual operating revenues exceeding \$1,000,000,000
- Nationals: Air carriers with annual operating revenues from \$100,000,001 to \$1,000,000,000
- Large Regionals: Air carriers with operating revenues between \$20,000,000 and \$100,000,000
- Medium Regionals: Carriers with annual operating revenues less than \$20,000,000

Carriers can move between groupings (e.g., Majors and Nationals) over time based on the criteria listed above. Each report includes 18 quarters of data. In the instance where a carrier falls into both groupings during the 18 quarters, a carrier will appear in both reports. The data from the Majors report and the data from the Nationals report should not be combined without ensuring any duplications are removed.

While the Office of Aviation Analysis has reviewed this report for obvious errors, the data are presented as reported by the carriers to the Bureau of Transportation Statistics and have not been verified or compared to publicly filed financial documents.
