Indicators of Human Trafficking

Human traffickers use transportation systems to recruit, transport, and exploit their victims in urban, rural, and tribal communities. Victims/traffickers can be of any age, race, ethnicity, sex, ability, nationality, citizenship, or socioeconomic background. Look for signs when you're on the road and passing through train stations, bus stations, rest areas, and transit centers.

When you see multiple indicators of human trafficking, report your suspicion.

If something doesn't seem right, don't dismiss it. Trust your instincts.
