INTRODUCTION

The *Air Travel Consumer Report* is a monthly product of the Department of Transportation's Office of Aviation Consumer Protection (OACP). The report is designed to assist consumers with information on the quality of services provided by the airlines.

The report is divided into sections (Flight Delays, Mishandled Baggage Wheelchairs and Scooters, Oversales, Consumer Complaints, Airline Reports of the Loss, Injury, or Death of Animals During Air Transportation and Customer Service Reports to the Transportation Security Administration. The sections concerning flight delays, mishandled baggage, wheelchairs and scooters and oversales are based on data collected by the Department's Bureau of Transportation Statistics. The section concerning consumer complaints is based on data compiled by the Office of Aviation Consumer Protection. The section concerning customer service reports to the Department of Homeland Security's Transportation Security Administration (TSA) is based on data provided by TSA. The section that deals with animal incidents during air transport is based on reports airlines are required to submit to the OACP. Each section of the report is preceded by a brief explanation of how to read and understand the information provided.

Previously released Air Travel Consumer Reports are available at: <https://www.transportation.gov/individuals/aviation-consumer-protection/air-travel-consumer-reports>

FLIGHT DELAYS

This section provides information about airline on-time performance, flight delays, and cancellations. It is based on data filed by airlines each month with the Department of Transportation's Bureau of Transportation Statistics (Office of Airline Information), as described in 14 CFR Part 234 of DOT's regulations. It covers nonstop operated and marketed scheduled-service flights between points within the United States (including territories) by the thirteen (13) U.S. air carriers that have at least half of one percent of total domestic scheduled-service passenger revenues.

The reportable airports with respect to which data must be submitted to the Department are those large, medium, small, or non-hub airports as defined in 49 U.S.C. 47102. Airports can be accessed through the [FAA](#). This report includes the 30 largest U.S. airports, except Table 5, which lists more than 200 airports in alphabetical order with the corresponding on-time arrival and departure percentages.

A flight is counted as "on-time" if it operated less than 15 minutes after the scheduled time shown in the carriers' Computerized Reservations Systems (CRS). All tables in this report except Table 4 are based on gate arrival times; Table 4 is based on gate departure times.

In fulfilling DOT's data reporting requirements, the reporting air carriers use automated and/or manual systems for collecting flight data. Those using an automated system rely on the Aircraft Communication Addressing and Reporting System (ACARS) or the Docking Guidance System (DGS). Based on the latest information available to DOT, of the 13 reporting air carriers, 8 carriers (Alaska, Allegiant, Delta, Envoy, Republic, Spirit, Southwest, and United) use ACARS, one carrier (American) uses a combination of ACARS, DGS, and four carriers (Frontier, JetBlue, PSA and SkyWest) use a combination of ACARS and a manual system.

A carrier may voluntarily file data for its entire domestic system. Tables 2, 2A, 3, and 4 are limited to the 30 largest airports; Tables 5, 6, 6A, 7 and 7A contain data on flights to/from all airports that were reported.

Tables 1 through 4 display percentages of flight operations that were on-time. Tables 1, 1A, 1B, 2 and 2A present data by marketing or reporting carrier; airlines are ranked by performance in Tables 1/1A and are listed in alphabetical order in Table 2/2A (see Appendix for codes). Table 1B shows marketing carrier rankings by month and Year-to-Date (YTD) on the percentage of flight operations that arrived on time.

Tables 3 and 4 contain information by airport and time of daytime of day that a flight operated in 24-hour clock format. All times are local. A 10:50 departure from Atlanta is 10:50 Atlanta time; if that flight arrived in Dallas at 23:45, that is 11:45 p.m. Dallas time. Table 5 lists all airports for which there are reports this month in alphabetical order with the corresponding on-time arrival and departure percentages.

Tables 6 and 6A display the number of operations, number of flight cancellations, and percentage of cancellations by air carrier marketing and reporting flights at all airports and for the air carriers' domestic system. Table 7 and 7A displays airline flight delay causation data by categories, and Table 7B provides an overall graphic representation of that data. Table 8 lists the regularly scheduled flights with tarmac delays of more than 3 hours and Table 8A lists the regularly scheduled international flights with tarmac delays of more than 4 hours.

Except for the flights listed in Tables 8 and 8A this report provides summary information - it does not show the on-time record of individual flights. The on-time performance for individual markets and flights can be searched at <https://www.transtats.bts.gov/ONTIME/>

Airline Service Quality Performance data from the most recent six months is available for free download at: <https://www.bts.gov/topics/airlines-and-airports/airline-information-download>. Additional summary data for airports and airlines can be found at BTS' Flight Delays at-a-Glance at: <https://www.bts.gov/browse-statistical-products-and-data/bts-publications/airline-service-quality-performance-234-time>. Cause of delay data for airports and airlines can be found at: http://www.transtats.bts.gov/OT_Delay/OT_DelayCause1.asp.

Information on the performance of specific flights is displayed on the CRS used by most airlines and travel agencies. Each of the reporting carriers' flights have a one-digit code between 0 and 9 representing that flight's percentage of on-time operations for the latest reported month. For example, "8" means that flight arrived on-time (within 15 minutes) between 80% and 89.9% of the time during the latest reported month.

* Causes of Delay:

· Air Carrier Delay: The cause of the cancellation or delay was due to circumstances within the airline's control (e.g. maintenance or crew problems, etc.).

· Extreme

· Weather Delay: Significant meteorological conditions (actual or forecasted) that, in the judgment of the carrier, delays or prevents the operation of a flight.

· National Aviation System Delay: Delays and cancellations attributable to the national aviation system refer to a broad set of conditions -- non-extreme weather conditions, airport operations, heavy traffic volume, air traffic control, etc.

· Security Delay: Delays caused by evacuation of terminal or concourse, re-boarding of aircraft because of security breach, inoperative screening equipment and long lines more than 29 minutes at screening areas.

· Late Arriving Aircraft Delay: Previous flight with same aircraft arrived late which caused the present flight to depart late.

A "cancelled" flight is a flight that was not operated but was in the carrier's computer reservation system within 7 days of the scheduled departure. A "diverted" flight is a flight which is operated from the scheduled origin point to a point other than the scheduled destination point in the carrier's published schedule.

All U.S. airlines with at least half of one percent of total domestic scheduled-service passenger revenues plus any branded codeshare partners.

APPENDIX

NOTE: The Department of Transportation has screened the reporting carriers' data for completeness and verified all arithmetic data elements computed by the carriers (e.g., length of delay). Individual flight operation records with incorrect calculations, erroneous city-pairs, or missing data elements were rejected and excluded from the data base; such rejected records accounted for less than half of one percent of the flight operations records submitted. Any errors in the database with respect to basic flight data -- non-computed data elements such as flight numbers, scheduled and actual arrival/departure times, days of operation -- are the responsibility of the reporting carrier.

MISHANDLED BAGGAGE

The baggage statistics in this section were filed with DOT's Bureau of Transportation Statistics (Office of Airline Information) by U.S. airlines that have at least half of one percent of total domestic scheduled-service passenger revenues. See 14 CFR 234.3 and 234.6. For the 12 months ending June 30, 2025, 14 air carriers reached this reporting threshold. They are Alaska Airlines, Allegiant Air, American Airlines, Delta Air Lines, Envoy Air, Frontier Airlines, Hawaiian Airlines, JetBlue Airways, PSA Airlines, Republic Airways, SkyWest Airlines, Southwest Airlines, Spirit Airlines, and United Airlines.

The tables in this section provide the rate of mishandled bags per 100 bags enplaned. The number of mishandled bags displayed in these tables represents the number of check bags that are lost, damaged, delayed, and pilfered, as reported by or on behalf of the passenger, that were in the airline's custody for its reportable domestic nonstop scheduled passenger flights. The number of bags enplaned displayed in these tables represent the total number of checked bags enplaned, including wheelchairs and scooters that were placed into the aircraft cargo compartment for any reportable domestic nonstop scheduled passenger flight. The number of mishandled bags and the number of enplaned bags for all airlines, except one airline, will not include bags of passengers traveling on itineraries with domestic segments and international segments unless the bag is a "valet bag," meaning the passenger dropped the bag off at the end of the loading bridge or on the tarmac and returned to the passenger on the loading bridge or on the tarmac following the flight. For additional information on this aspect of mishandled baggage reporting see the Department's Notice of Enforcement Policy Regarding Reporting of Mishandled Baggage and Wheelchair Data, dated October 31, 2018: <https://www.transportation.gov/sites/dot.gov/files/docs/resources/individuals/aviation-consumer-protection/323451/mishandled-baggageand-wheelchair-reporting-enforcement-policy.pdf>

MISHANDLED WHEELCHAIRS AND SCOOTERS

The Department revised 14 CFR 234 to require airlines classified as “reporting carriers” to report mishandled wheelchair and scooter data in aircraft cargo compartments. Pursuant to the FAA Reauthorization Act of 2018, this requirement applies to operations on and after December 4, 2018. For flights on January 1, 2019, and after, airlines must also report this data for their branded codeshare partners.

OVERSALES

This section furnishes data on the number of passengers who hold confirmed reservations and are denied boarding ("bumped") from a flight because it is oversold. These figures include only passengers whose oversold flight departs without them; they do not include passengers affected by cancelled, delayed, or diverted flights.

The report includes U.S. airlines that have at least half of one percent of total domestic scheduled-service passenger revenues and operate aircraft with a passenger capacity of 30 or more seats (see footnote on chart for details). It provides system data for scheduled passenger service on domestic flights and data on international flight segments that originate in the United States. Information is displayed for the latest available quarter and for the year to date, for the current period and for the same period in the previous year. The data are reported quarterly to DOT's Bureau of Transportation Statistics (Office of Airline Information). The reporting requirement is found in 14 CFR 250.10.

These tables give information by marketing and reporting carrier on the number of passengers bumped involuntarily and on the number who voluntarily gave up their seat on an oversold flight in exchange for compensation. Also shown is the rate of involuntary denied boarding's per 10,000 passengers. This rate determines the order in which carriers are listed; the airline with the lowest rate appears first. The number and rate of involuntary denied boarding's include both passengers who received denied boarding compensation and passengers who did not qualify for compensation because of one of the exceptions in the Oversales rule. There are four exceptions: 1) passenger accommodated on another flight scheduled to arrive within one hour of the original flight; 2) passenger fails to comply with ticketing, check-in, or reconfirmation procedures; 3) aircraft of smaller capacity is substituted; and (4) passenger is denied boarding due to safety-related weight restrictions on an aircraft with 60 or fewer seats. Totals appear at the end of each table.

The enplanements figures that are used to calculate the involuntary denied boarding rate do not include inbound international service, since the rule does not apply to these flights.

AIR TRAVEL COMPLAINTS, COMPLIMENTS, AND COMMENTS RECEIVED BY DOT

On August 1, 2025, the U.S. Department of Transportation (DOT) launched a modernized system for submitting and handling air travel service complaints as part of the Aviation Complaint, Enforcement, and Reporting System (ACERS).

Replacing a legacy system from the 1990s, ACERS provides a granular view of the air travel experience. This report, covering January 2026, details complaints against specific airlines and ticket agents, moving away from broad groupings to offer more precise transparency.

Understanding the Data

The data in this report is based on consumer perception and is organized into three distinct groups.

- A **complaint** is a specific written expression of dissatisfaction concerning a difficulty or problem which the person experienced when using or attempting to use an airline’s services. The filing of a complaint by a consumer does not equate to a violation of law.
- A **comment** is a remark regarding air transportation expressing an opinion.
- A **compliment** is a submission regarding a positive customer experience.

Note on Methodology: A single **complaint case** may involve multiple issues (e.g., a flight delay and a baggage problem). For reporting purposes, each case is counted once based on the primary reason identified by the consumer.

¹Most passengers file complaints against the airline brand shown on their ticket or aircraft, regardless of which airline actually operated the flight. Four (4) U.S. carriers—American, Delta, Alaska, and United—use domestic partners to fly routes under their brand. Because these brands serve as the “face” of the flight, a complaint case listed here against these airlines may relate to flights provided by a partner airline that was sold by the major carrier.

²Airlines are listed individually if DOT received five or more complaint cases during this period. For U.S. carriers with fewer than five complaint cases, data is consolidated under “Other U.S. Airline.”

³On October 29, 2025, the FAA issued a Single Operating Certificate to Alaska Airlines and Hawaiian Airlines. Because they now operate under a single certificate and Alaska Airlines is ultimately responsible for the operations, all consumer complaint data for Hawaiian Airlines is combined with and attributed to Alaska Airlines.

AIR TRAVEL CONSUMER REPORT

Airline Reports to DOT of Incidents Involving the Loss, Injury or Death of Animals During Air Transportation

JANUARY 2026

14 CFR Part 235 of DOT regulations require U.S. carriers that operate at least one aircraft that has a designed seating capacity of 60 or more seats to report to DOT on any incidents involving the loss, injury, or death of an animal in its scheduled domestic or international passenger transportation. An "animal" for this purpose is (1) any animal which at the time of the transportation was being kept as a pet in a family household in the United States or (2) any dog or cat which was shipped as part of a commercial shipment on a scheduled passenger flight, including shipments by trainers and breeders.

An airline is required to submit a report for any month in which it experienced such a loss, injury, or death during air transportation. DOT publishes these reports monthly and forwards the reports to the U.S. Department of Agriculture, which enforces the Animal Welfare Act. The copies of the reports that appear on this website are redacted to remove identifying information about individuals, including the owner of the animal.

A statistical summary of the reports appears in the table below. To see the redacted version of the actual reports filed by these airlines, click the airline's name.

U.S. Department of Homeland Security, Transportation Security Administration Customer Experience Report for January 2026 ^a

The Transportation Security Administration (TSA) screened approximately 64.2 million passengers at screening checkpoints and 37.0 million checked bags at baggage screening locations in January 2026.

Since its formation, TSA has maintained a strong focus on customer service and began collecting customer service data voluntarily to improve security operations. TSA values customer feedback and encourages passengers to contact the agency if the level of service provided to them does not meet their expectations ^b.

In January 2026, TSA received 13,912 complaints (i.e. a description of a negative experience) from the public via phone or email (or 21.7 complaints per 100,000 passengers ^c). Below is a more detailed breakdown:

| Courtesy | | Screening of Personal Property | | Screening of Passengers | | Wait Times (Checkpoint) | |
|----------------------|--|--------------------------------|--|-------------------------|--|-------------------------|--|
| Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c |
| 572 | 0.9 | 643 | 1.1 | 11,105 | 17.4 | 88 | 0.2 |

|----------------------|--|----------------------|--|--------------------------|--|-----------------------------|--|
| Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c | Number of Complaints | Complaints per 100,000 Passengers ^c |
| 599 | 1.0 | 336 | 0.6 | 131 | 0.3 | 438 | 0.7 |

In addition, TSA processes claims concerning loss or damage to passenger property. Claims allegedly resulting from an incident that occurred at a passenger screening checkpoint are handled exclusively by TSA. Checked baggage is primarily handled by the airlines. TSA screens most checked baggage using automated screening technology. TSA physically searches only a small percentage of checked baggage. Consequently, the data below for checked baggage includes claims for which TSA and/ or the airlines may be liable.

| Number of Claims Received Regarding Loss or Damage to Property | | |
|--|---------------------------------------|---|
| Checkpoint (TSA) | Checked Baggage (TSA and/ or Airline) | Claims per 100 Checked Bags Only |

REFERENCES

- ^a Under Section 421(a) of Vision 100--Century of Aviation Reauthorization Act, Public Law 108-176 (December 12, 2003), 49 U.S.C. 329(e), the U.S. Department of Homeland Security, Transportation Security Administration, has provided this customer service report on passenger and baggage screening complaints and incidents to the U.S. Department of Transportation.
- ^b The TSA Contact Center can be reached via phone (tel: 866-289-9673) or e-mail (tailored web forms at <https://www.tsa.gov/contact/contact-forms>). TSA Contact Center representatives are available from 8:00AM to 11:00PM EST, Monday through Friday, and Weekends and Holidays, 9:00AM to 8:00PM.
- ^c The complaints per 100,000 passengers' metric is calculated as follows: # of Complaints divided by # of Airline Passenger multiplied by 100,000 (e.g. 300 complaints / 20,000,000 passengers * 100,000 equals 1.50). In this example, TSA experienced 1.5 complaints for every 100,000 passengers that TSA screened.
- ^d TSA records the number of passengers screened at checkpoints rather than the number of bags or items screened at TSA checkpoints. Therefore, this table does not present the rate of claims regarding loss or damage to property compared to the total number of items screened at checkpoints.
