

## Alaska Airlines (AS) Animal Incident report for June 2026

Incident Date/Time: 6/12/2026, 10:26 PM

Flight Number: 816

Breed: French Bulldog

Type: Death

### Description:

A 6-year-old French Bulldog was found deceased upon arrival of flight 816 on June 12th. Prior to being transported to the aircraft, the animal was held in a climate-controlled animal room and checked on repeatedly. The animal was dropped off at the gate with no incident at 1143 am. Upon loading at approx. 12:27 pm, the dog appeared happy. The flight was delayed after boarding and loading for approximately 57 mins.

### Cause:

Necropsy report indicates that there was an underlying condition as potential cause of death.

### Remedy:

Honolulu Ramp and Cargo teams worked together to determine better communication plans for delays along with a new timeline for dropping off Brachycephalic animals at the aircraft closer to the departure time of the flight.
