¹ Public Law 119-75 redirects certain prior-Enacted IIJA Division J funds to other programs to serve as the funding source for portions of the FY 2026 Discretionary Appropriations. Because Congressional action directed these budget authority adjustments, they are being reflected in the Enacted Budget Authority, rather than Transfers, column of this report.

² The IIJA includes Transfer Authority for most Operating Administrations in various accounts. While too exhaustive to list all authorities here, some notable new authorities in the IIJA include transfers of multimodal grants in OST to the Multimodal Freight Policy Office, transfers to OIG for oversight activitiy, transfers for NHTSA of Division J funding to other NHTSA accounts, and transfers within FRA for oversight activity. Amounts shown are updated monthly once certified through Treasury's Governmental Trial Balance System (GTAS) and include actual transfers, recissions and sequestration as of that date.

In addition, during the duration of the continuing resolution, Mandatory Contract Authority is limited by a pro-rata share of obligation limitation. The amount in excess of the amount available for obligation is reflected as an adjustment in this column, so that the resulting adjusted total reflects only amounts currently available for obligation.

³ The "Grants Announced" Column represents: 1) Discretionary Grant Awards where project selections have been publicly announced and 2) Formula Grant Funding that has been apportioned or allocated to recipients

⁴ The Federal-Aid Highways Grants Announced total reflects the full year contract authority authorized by IIJA, which is released to States in full at the start of each Fiscal Year. These amounts are subject to FY 2026 obligation limitation and are only available for obligation up to the amount shown in the preceding 'adjusted total' column.
