The Nebraska Aeronautics Commission allocates funds to two different types of projects: matching grants to Airport Improvement Program (AIP) projects and State grants. The matching grants are issued after the AIP grant has been executed. Delays in the federal AIP grants also delay a matching grant. All allocations of State money are maximums and limited to a percentage of total eligible project costs.

The Commission allocates state funds to eligible airport projects once a year, typically in October. The next allocation meetings are currently scheduled for October 15 & 16, 2009. Some of the funds allocated during the 2009 meeting are expected to be expended in the timeframe defined in the certification.
