RE: Oklahoma ARRA Phase 2 Projects

Dear Secretary LaHood:

Pursuant to the Section 1511 Transparency and Oversight Certification for recovery projects as required by the American Recovery and Reinvestment Act of 2009 (ARRA), enclosed is the State of Oklahoma’s certification that the Oklahoma Phase 2 Recovery Projects and the investments represented have received the full review and vetting required by law and are an appropriate use of taxpayer dollars. This Certification is provided for the attached list of Recovery Projects only and is representative of the second phase of Oklahoma’s Statewide program.

Theses projects have been advertised by the Oklahoma Department of Transportation and are currently scheduled for construction bid letting on April 23, 2009. The projects are estimated to be financed with ARRA funding, but the final financing will draw from multiple funding sources. The final financing and ARRA participation levels will be determined to the extent possible at the time of authorization and we anticipate that the final financing determinations will remain subject to further review and modification until the time of the award of the resulting contracts. The State will be submitting additional certifications on behalf of the Oklahoma Department of Transportation as necessary to address the remaining ARRA project phases.

Thank you for your guidance and cooperation. Of course, please do not hesitate to contact me should you have questions, comments or require additional information.

Sincerely,

Brad Henry  
Governor
