

Incident 1

Carrier: Alaska Airlines
Flight: AS 86 (ANC-SEA)
Date of incident: Monday, July 13, 2009
Time of incident: Approximately 5:05 PM PT

Description of animal (including name): unknown

Narrative description of incident: A dog inside a kennel, while being transferred to another flight, escaped his kennel. The dog jumped out of a bag cart, through a small curtain window normally covered with clear plastic. With the assistance of the pet owner, the Port of Seattle caught the dog a few hours later after running across the Seattle ramp and runways.

The pet owner mentioned that he might take the dog to see a Veterinarian at his final destination, being that the dog had a bloody rear paw, mouth and nose.

Narrative description of cause of the incident:

A dog inside a kennel escaped out of its kennel and the baggage cart during transfer, it ran across the Seattle ramp and runways until its capture hours later, the dog was bleeding from its mouth, nose and one rear paw.

Narrative description of any correction action taken in response to the incident:

No action required

Incident 2

Carrier: Alaska Airlines
Flight: AS 697 (GEG-SEA)
Date of incident: Saturday, July 18, 2009
Time of incident: Approximately 7:05 AM PT

Description of animal (including name): unknown

Narrative description of incident: A dog inside a kennel arrived Seattle, it appeared that the dog had been trying to dig out of its kennel during the flight, cutting his front left paw. The dog's paw was bleeding, blood was found inside the kennel. The dog was taken to Flight AS 61 and the dog was checked by owner prior to continuing its travel.

Narrative description of cause of the incident:

Dog inside kennel appeared to have been trying to dig out its kennel, injuring its front left paw.

Narrative description of any correction action taken in response to the incident:

No action required

AMERICAN EAGLE / JULY 2009

DOT PET INCIDENT REPORT

Carrier and Flight Number

AE4404

Date and Time of the Incident

29 July 2009

Description of the Animal, Including Name

Snowball, a 9 week old male Maltese puppy

Narrative Description of Incident

Puppy was being shipped from FWA to EWR. In Chicago, puppy was very weak and minimally responsive. It was vomiting and had diarrhea. In ORD, AA contacted the Shipper and Consignee, and also consulted with a vet to determine if the animal could be shipped from ORD to EWR

Narrative Description of Cause of the Incident

Puppy died before it could be transported from ORD to EWR; hence, a necropsy was performed. The results showed the dog had pneumonia

Narrative Description of any Corrective Action Taken in Response to Incident

No corrective action taken; Shipper was consulted and elected euthanasia of the puppy (because of the acute renal failure and other problems that had occurred

AMERICAN AIRLINES / JULY 2009
DOT PET INCIDENT REPORT

Carrier and Flight Number

American Airlines Flight #513 (TPA - SJU)

Date and Time of the Incident

10 July 2009

Description of the Animal, Including Name

Canine, mixed breed by the name of Danilo

Narrative Description of Incident

Ramp personnel discovered the deceased pet upon arrival of flight 513 from TPA. There were no obvious signs of any trauma to the kennel or the pet and the pet was taken to the Condado Animal Hospital in San Juan for a necropsy.

Narrative Description of Cause of the Incident

The necropsy report determined that chronic renal failure was suspected with acute pulmonary edema, possibly due to cardiac failure.

Narrative Description of any Corrective Action Taken in Response to Incident

No corrective action is necessary.

INCIDENT #1:

CO Flight # 499 Houston to Denver
July 3, 2009

Dog – Yellow Labrador Retriever / age 2yrs
Male / Name: "Dakota"

Owner/Guardian

REDACTED

NARRATIVE DESCRIPTION

Description of the Incident:

Dakota arrived in Denver lying in his crate deceased.

Description of the Cause of the Incident:

A necropsy was performed at Continental's expense and the pathologist noted that Dakota suffered from a condition called "Disseminated Intravascular Coagulation (DIC)" which caused Dakota to suffer hemorrhaging. Cardio myopathy (abnormality of the heart muscle) was also noted and contributed to the death of this animal.

Description of any corrective action taken:

None. The death of this pet was not transit related.

HAWAIIAN AIRLINES
ANIMAL INCIDENT REPORT

Date: 14JUL09
Time: 10:57 a.m.
Reporting Station: HNL
Flight: HA2
From: HNL
To: LAX

Animal Information:

Name: Moya

Description: Tabby cat, gray and orange

Incident:

Passenger checked in at 10:47 a.m. At 10:57 a.m., the porter took the kennel to the bag room. Cat escaped in the bag room and the porter did not report it. Cat was not discovered as missing until the flight was airborne to LAX.

Cause:

Kennel was not properly secured after TSA inspection.

Corrective action: Disciplinary action has been taken with the porter and he will not be allowed to work on HA contract. \$225 pet fee was refunded to passenger.
