Federal Aviation Administration

- |  |     |
|--|-----|
| 1. <b>Aging Aircraft Program (Widespread Fatigue Damage)</b> | Red |
|--|-----|

**Popular Title:** Aging Aircraft Widespread Fatigue

**RIN 2120-AI05**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 4/18/2006; End of Comment Period 7/17/2006; Extended Comment Period 7/17/2006; End of Extended Comment Period 9/18/2006.

**Abstract:** This rulemaking would require design approval holders to establish limits of validity (LOVs) of the engineering data that support the maintenance programs for certain transport category airplanes, and it would require them to determine if maintenance actions are needed to prevent widespread fatigue damage before an airplane reaches its LOV. This rulemaking would require operators of any affected airplane to incorporate the LOV into the airworthiness limitations section of the instructions for continued airworthiness. This rulemaking would also prohibit operation of an affected airplane beyond the LOV, unless an operator has incorporated an extended LOV and any necessary service information into its maintenance program.

**Effects:**

EU  
NAFTA  
Foreign

**Prompting action:** None

**Legal Deadline:** None

**Rulemaking Project Initiated:** 02/14/2004

**Docket Number:** FAA-2006-24281

**Dates for Final Rule:**

Milestone	Originally Scheduled Date	New Projected Date	Actual Date
To OST	05/14/2007	10/01/2009

**Explanation for any delay:** Additional coordination necessary

**Federal Register Citation for Final Rule:** None

Federal Aviation Administration

2. **Commuter Operations in Very Light Jets (VLJs)** Red

**Popular Title:** VLJ

**RIN 2120-AI84**

**Stage:** Undetermined

**Previous Stage:**None

**Abstract:** This rulemaking would establish a rule to allow passenger-carrying commuter operations to be conducted under the provisions of part 135 using multiengine turbojets, certificated under either part 23 or part 25, configured with 9 or fewer passenger seats. The rulemaking would allow multiengine turbojet operators to provide commuter service to the traveling public, thus accommodating new technologies and a new generation of turbojet airplanes that otherwise would not be allowed in part 135 commuter service. Since 1995, turbojets used in scheduled operations must operate under the provisions of part 121. This current rulemaking resulted, in part, from recommendations from the Aviation Rulemaking Committee for parts 14 CFR 135/125 and covers pilot crew, equipment, training, and dispatch requirements for the safe operation of this new generation airplane. The previous internet report listed this item as an NPRM with a scheduled publication date of 10/20/09. FAA is now reconsidering what action to take with respect to this rulemaking.

3. **Re-registration and Renewal of Aircraft Registration** Green

**Popular Title:** Re-registration & Renewal of Aircraft Registration

**RIN 2120-AI89**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 2/28/2008; End of Comment Period 8/28/2008

**Abstract:** This rulemaking would amend requirements concerning the registration of aircraft. The rulemaking is based on the need to increase and maintain the accuracy of aircraft registration information in the Civil Aviation Registry. This rulemaking would ensure aircraft owners periodically provide information regarding changes in registration. The rulemaking would respond to the concerns of law enforcement and other government agencies and would provide more accurate, up-to-date aircraft registration information to all users of the Civil Aviation Registry database.

**Effects:**

Information Collection

**Prompting action:** None

4. **Activation of Ice Protection**

Red

**Popular Title:** Activation of Ice Protection

**RIN 2120-AI90**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 04/26/2007; End of Comment Period 07/25/2007

**Abstract:** This rulemaking would amend the airworthiness standards applicable to transport category airplanes certificated for flight in icing conditions. The standards would require a means to ensure timely activation of the airframe ice protection system. This rulemaking is the result of information gathered from a review of icing accidents and incidents, and is intended to improve the level of safety for new airplane designs when operating in icing conditions.

**Effects:**

EU  
NAFTA  
Foreign

**Prompting action:** None

**Legal Deadline:** None

**Rulemaking Project Initiated:** 03/28/2006

**Docket Number:** FAA-2007-27653

**Explanation for any delay:** Additional coordination necessary

**Federal Register Citation for Final Rule:** 74 FR 38328

Federal Aviation Administration

5.	<b>Automatic Dependent Surveillance - Broadcast (ADS-B) Equipage Mandate To Support Air Traffic Control Service</b>	Green
----	---	-------

**Popular Title:** ADS-B

**RIN 2120-AI92**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 10/05/2007; End of Comment Period 11/19/07; Comment Period Extended 01/03/2008; End of Extended Comment Period 03/03/2008.

**Abstract:** This rulemaking would require Automatic Dependent Surveillance - Broadcast (ADS-B) Out equipment on aircraft to operate in certain classes of airspace within the United States National Airspace System. The rulemaking is necessary to accommodate the expected increase in demand for air transportation, as described in the Next Generation Air Transportation System Integrated Plan. The intended effect of this rule is to provide the Federal Aviation Administration with a comprehensive surveillance system that accommodates the anticipated increase in operations and would provide a platform for additional flight applications and services.

Federal Aviation Administration

6. **Flight Crewmember Duty Limitations and Rest Requirements** Black

**Popular Title:** Duty Limitations And Rest Requirements

**RIN 2120-AI93**

**Stage:** Withdrawal

**Previous Stage:** NPRM: Publication Date 12/20/1995; End of Comment Period 03/19/1996; Comment Period Extended 3/20/1996; End of Extended Comment Period 6/19/1996.

**Abstract:** This rulemaking would withdraw a previously published NPRM (RIN 2120-AF63) that proposed to establish one set of duty period limitations, flight time limitations, and rest requirements for flight crewmembers engaged in air transportation. The NPRM also proposed to establish consistent and clear duty period limitations, flight time limitations, and rest requirements for domestic, flag, supplemental, commuter and on-demand operations. This action is necessary, because (1) the NPRM is outdated and (2) there were many significant issues commenters raised.

7. **Qualification, Service, and Use of Crewmembers and Aircraft Dispatchers** Red

**Popular Title:** Part 121, Subparts N and O

**RIN 2120-AJ00**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would amend the regulations for crewmember and dispatcher training programs in domestic, flag, and supplemental operations. The rulemaking would enhance traditional training programs by requiring the use of flight simulation training devices for flight crewmembers and including additional training requirements in areas that are critical to safety. The rulemaking would also reorganize and revise the qualification and training requirements. The changes are intended to contribute significantly to reducing aviation accidents.

**Effects:**

**Popular Title:** Overtorque Limits

**RIN 2120-AJ06**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 03/26/2008; End of Comment Period 06/24/2008

**Abstract:** This rulemaking would amend the certification standards for aircraft engines to establish requirements for approval of maximum engine overtorque. Specifically, this rulemaking would add a new engine overtorque test, amend engine ratings and operating limits, and define maximum engine overtorque for certain turbopropeller and turboshaft engines. The rulemaking would harmonize applicable United States (U.S.) and European standards and simplify airworthiness approvals for import and export of aircraft engines.

**Effects:**

Federal Aviation Administration

9. **Safety Management Systems (SMS)** Red

**Popular Title:** SMS

**RIN 2120-AJ15**

**Stage:** ANPRM

**Previous Stage:**None

**Abstract:** This rulemaking would require a Safety Management System (SMS) for FAA certificate holders, certain product manufacturers, applicants, and employers. This action is being taken to further enhance the practice of managing safety, conducting risk and system assessments and analysis, undertaking preventive and corrective actions, and creating a safety culture. The intended effect of this action would make the United States compliant with International Civil Aviation Organization (ICAO) annexes.

**Effects:**

Information Collection

Federal Aviation Administration

10. **Pilot-in-Command Proficiency Check in Single-Piloted Turbojet Airplanes** Red

**Popular Title:** PIC Proficiency

**RIN 2120-AJ18**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rule would require proficiency checks for pilots in command (PIC) of single-piloted turbojet powered airplanes, allow pilot schools to use Internet-based training without requiring schools to have a physical ground training facility, allow pilot schools and provisional pilot schools to apply for a combined private pilot certification and instrument rating course, and revise the definitions of "complex airplane" and "high performance airplane." FAA believes these actions are necessary to respond to changes in the aviation industry and to avoid imposing unnecessary regulatory burdens. The intended effect of this rule would be to ensure flight crewmembers have the training and qualifications necessary to operate aircraft safely.

**Effects:**

11.	<b>Certification of Turbojets</b>	Yellow
-----	-----------------------------------	--------

**Popular Title:** Turbojets

**RIN 2120-AJ22**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would address certification and operational issues surrounding the introduction of light jets. This action is necessary to standardize certification requirements and consolidate these requirements into one location. The intent is to ensure the same standards apply to all light jets.

**Effects:**

None

**Prompting action:** None

Federal Aviation Administration

12. **Flightcrew Alerting (Formerly Warning, Caution and Advisory Lights)** Green

**Popular Title:** Flightcrew Alerting

**RIN 2120-AJ35**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would amend the airworthiness standards for transport category airplanes regarding definitions, prioritization, color requirements, and performance. These changes would update the latest technology and functionality concerning flightcrew alerting. This rulemaking is necessary to add additional alerting functions and to consolidate and standardize definitions and regulations for flightcrew warning, caution, and advisory systems.

13.	<b>Restrictions on Operators Employing Former Flight Standards Service Aviation Safety Inspectors</b>	Yellow
-----	---	--------

**Popular Title:** Post Employment Restrictions

**RIN 2120-AJ36**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would prohibit a certificate holder from employing or contracting with a former Aviation Safety Inspector (ASI) or other person with certificate holder oversight responsibilities to act as an agent or to represent that certificate holder in any matter before the FAA. This restriction would apply if the person, in the proceeding two year period, has (a) served as, or was responsible for oversight of, a Flight Standards Service ASI; and (b) had the responsibility to inspect, or oversee the inspection of, the operations of the certificate holder. The rulemaking would enhance the FAA's ability to properly perform its safety mission and to ensure that every passenger can have complete confidence in the integrity of the programs and operations administered by the FAA.

Federal Aviation Administration

16.	<b>Part 121 - Activation of Ice Protection</b>	Yellow
-----	--	--------

**Popular Title:** Part 121 - Ice Protection

**RIN 2120-AJ43**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would amend the regulations applicable to operators of certain airplanes used in air carrier service and certificated for flight in icing conditions. The standards would require either the installation of ice detection equipment or changes to the Airplane Flight Manual to ensure timely activation of the airframe ice protection system. This regulation is the result of information gathered from a review of icing accidents and incidents, and it is intended to improve the level of safety when airplanes are operated in icing conditions.

**Effects:**

17. **Production and Airworthiness Approvals** Red

**Popular Title:** Production and Airworthiness Approvals

**RIN 2120-AJ44**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 10/05/2006; End of Comment Period 01/03/2007; Extended Comment Period Publication Date 12/20/06; End of Extended Comment Period Date 02/05/2007

**Abstract:** This rulemaking would amend the certification procedures and identification requirements for aeronautical products and articles. These amendments would update and standardize those requirements for production approval holders (PAHs), revise export airworthiness approval requirements to facilitate global manufacturing, move all part-marking requirements from part 21 to part 45, and amend the identification requirements for products and articles. The intent of these changes is to continue to promote safety by ensuring that aircraft, and products and articles designed specifically for use in aircraft, wherever manufactured, meet appropriate minimum standards for design and construction. This rulemaking was split from RIN 2120-AI78.

18.	<b>Part 129 Operations Specifications</b>	Yellow
-----	---	--------

**Popular Title:** Part 129 Ops Specs

**RIN 2120-AJ45**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would clarify and standardize the rules for application, amendment, suspension or revocation of operations specifications issued to foreign air carriers operating in the United States. This action is necessary to update our processes for Operations Specifications. The intent of this action is to permit operations specifications to be easily revised and updated to meet international standards and the changing aviation environment.

19.	<b>Congestion Management Rule for John F. Kennedy International Airport and Newark Liberty International Airport</b>	Yellow
-----	--	--------

**Popular Title:** JFK-EWR Congestion Management

**RIN 2120-AJ48**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication date 05/14/2009; End of Comment Period 06/15/2009.

**Abstract:** This rulemaking would rescind the final rule on Congestion Management for John F. Kennedy International Airport and Newark Liberty International Airport. The final rule established procedures to address congestion in the New York City area by assigning slots at John F. Kennedy (JFK) and Newark Liberty (Newark) International Airports, assigning to existing operators the majority of slots at the airports, and creating a market by annually auctioning off a limited number of slots in each of the first five years of the rule. The final rule also contained provisions for minimum usage, capping unscheduled operations, and withdrawal for operational need. The rule was scheduled to sunset in ten years.

25. **Real-Time System Management Information Program** Red

**Popular Title:** Real-Time Management

**RIN 2125-AF19**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 1/14/2009; End of Comment Period 4/14/2009.

**Abstract:** This action would establish a real-time system management information program to provide, in all States, the capability to monitor, in real-time, the traffic and travel conditions of the major highways of the United States. Section 1201 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) provides that the purpose of this program would be to improve the security of the surface transportation system, to address the congestion problems facing motorists, to support improved response to weather events and surface transportation incidents and to facilitate national and regional highway traveler information.

## Federal Motor Carrier Safety Administration

Federal Motor Carrier Safety Administration

27. **Unified Registration System** Red

**Popular Title:** URS

**RIN 2126-AA22**

**Stage:** SNPRM

**Previous Stage:** ANPRM: Publication Date 8/26/96; End of Comment Period 10/25/96. NPRM: Publication Date 05/19/2005; End of Comment Period 08/17/2005.

**Abstract:** This rulemaking would replace three current identification and registration systems: the US DOT number identification system, the commercial registration system, and the financial responsibility system, with an online Federal unified registration system (URS). This program would serve as a clearinghouse and depository of information on, and identification of, brokers, freight forwarders, and others required to register with the Department of Transportation. The Agency is revising this rulemaking to address amendments directed by SAFETEA-LU. The replacement system for the Single State Registration System, which the ICC Termination Act originally directed be merged under URS, will be addressed separately.

Federal Motor Carrier Safety Administration

28.	<b>Application by Certain Mexico-Domiciled Motor Carriers to Operate Beyond U.S. Municipalities and Commercial Zones on the U.S.-Mexico Border</b>	Red
-----	--	-----

**Popular Title:** Mexico-Domiciled Motor Carriers

**RIN 2126-AA34**

**Stage:** Undetermined

**Previous Stage:** NPRM: Publication Date 05/03/2001; End of Comment Period 07/02/2001. Interim Final Rule: Publication Date 03/19/2002; End of Comment Period 04/18/2002.

**Abstract:** This rulemaking would change FMCSA regulations to govern applications by Mexican carriers to operate beyond municipalities and commercial zones at the United State-Mexico border. It would also revise the application form, OP-1MX, to be filed by these Mexican motor carriers. The revised form would require additional information about the applicant's business and operating practices to allow the FMCSA to determine if the applicant can meet the safety standards established for operating in interstate commerce in the United States. Carriers that had previously submitted an application would have to submit the updated form. These changes are needed to implement part of the North American Free Trade Agreement (NAFTA). On January 16, 2003, the Ninth Circuit Court remanded this rule, along with two other NAFTA-related rules, to the agency, requiring a full environmental impact statement and an analysis required by the Clean Air Act. On June 7, 2004, the Supreme Court reversed the Ninth Circuit and remanded the case, holding that FMCSA is not required to prepare the environmental documents as ruled by the Ninth Circuit. FMCSA originally planned to publish a final rule by November 20, 2003. FMCSA will determine the next steps to be taken after enactment of any pending legislation authorizing cross border trucking.

Federal Motor Carrier Safety Administration

29.	<b>Safety Monitoring System and Compliance Initiative for Mexico-Domiciled Motor Carriers Operating in the United States</b>	Red
-----	--	-----

**Popular Title:** Safety Monitoring

**RIN 2126-AA35**

**Stage:** Undetermined

**Previous Stage:** NPRM: Publication Date 05/03/2001; End of Comment Period 07/02/2001. Interim Final Rule: Publication Date 03/19/2002; End of Comment Period 04/18/2002.

**Abstract:** This rule would implement a safety monitoring system and compliance initiative designed to evaluate the continuing safety fitness of all Mexico-domiciled carriers within 18 months after receiving a provisional Certificate of Registration or provisional authority to operate in the United States. It also would establish suspension and revocation procedures for provisional Certificates of Registration and operating authority, and incorporate criteria to be used by FMCSA in evaluating whether Mexico-domiciled carriers exercise basic safety management controls. The interim rule included requirements that were not proposed in the NPRM but which are necessary to comply with the FY-2002 DOT Appropriations Act. On January 16, 2003, the Ninth Circuit Court of Appeals remanded this rule, along with two other NAFTA-related rules, to the agency, requiring a full environmental impact statement and an analysis required by the Clean Air Act. On June 7, 2004, the Supreme Court reversed the Ninth Circuit and remanded the case, holding that FMCSA is not required to prepare the environmental documents. FMCSA originally planned to publish a final rule by November 28, 2003. FMCSA will determine the next steps to be taken after enactment of any pending legislation authorizing cross border trucking.

Federal Motor Carrier Safety Administration

31.	<b>Limitations on the Issuance of Commercial Driver Licenses with a Hazardous Materials Endorsement</b>	Green
-----	---	-------

**Popular Title:** USA PATRIOT Act Rule

**RIN 2126-AA70**

**Stage:** Interim Final Rule/4

**Previous Stage:** Interim Final Rule: Publication Date 05/05/2003; End of Comment Period 07/07/2003. IFR Delay of Compliance Date: Publication Date 11/07/2003; End of Comment Period 01/06/2004. IFR Delay of Compliance Date: Publication Date 08/19/2004; Interim Final Rule/3: Publication Date 08/19/2004.

**Abstract:** This rulemaking would prohibit States from issuing, renewing, transferring or upgrading a commercial driver's license (CDL) with a hazardous materials endorsement, unless the Transportation Security Administration (TSA) has first conducted a background check on the applicant and determined the applicant does not pose a security risk warranting denial of the hazardous materials endorsement. FMCSA and TSA simultaneously published interim final rules. FMCSA has published another IFR corresponding to TSA's extension of compliance date. Since this rulemaking conforms to TSA's rulemaking, the rulemaking is dependent upon TSA action. This action is considered significant because of substantial public and congressional interest, and national security.

33. <b>Electronic On-Board Recorders for Hours-of-Service Compliance</b>	Red
--	-----

**Popular Title:** Electronic On-Board Recorders

**RIN 2126-AA89**

**Stage:** Final Rule

**Previous Stage:** ANPRM: Publication Date 9/01/2004; End of Comment Period 11/30/2004. NPRM: Publication Date 01/18/2007; End of Comment Period 04/18/2007.

**Abstract:** This rulemaking would amend the Federal Motor Carrier Safety Regulations (FMCSRs) to incorporate new performance standards for electronic on-board recorders (EOBRs) installed in commercial motor vehicles (CMVs) manufactured 2 years after the effective date of a final rule. On-board hours-of-service recording devices meeting FMCSA's current requirements and voluntarily installed in CMVs manufactured before that date could continue to be used for the remainder of the service life of those CMVs. Motor carriers that have demonstrated a history of serious noncompliance with the hours-of-service (HOS) rules would be subject to mandatory installation of EOBRs meeting the new performance standards (a remedial directive). The motor carrier would then be required to install EOBRs in all of its CMVs regardless of their date of manufacture and to use the devices for HOS recordkeeping for a period of 2 years, unless the carrier already had equipped its vehicles with automatic on-board recording devices (AOBRDs) meeting the Agency's current requirements under 49 CFR 395.15 and could demonstrate to FMCSA that its drivers understand how to use the devices. FMCSA would encourage industry-wide use of EOBRs by providing the following incentives for motor carriers to voluntarily use EOBRs in their CMVs: Revising the Agency's compliance review procedures to permit examination of a random sample of drivers' records of duty status; and providing partial relief from HOS supporting documents requirements, if certain conditions are satisfied.

**Popular Title:** National Registry

**RIN 2126-AA97**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 12/01/08; End of Comment Period 01/30/09

**Abstract:** This rulemaking would establish training, testing and certification standards for medical examiners responsible for certifying that interstate commercial motor vehicle drivers meet established physical qualifications standards; provide a database (or National Registry) of medical examiners that meet the prescribed standards for use by motor carriers, drivers, and Federal and State enforcement personnel in determining whether a medical examiner is qualified to conduct examinations of interstate truck and bus drivers; and require medical examiners to transmit electronically to FMCSA the name of the driver and a numerical identifier for each driver that is examined. The rulemaking would also establish the process by which medical examiners that fail to meet or maintain the minimum standards would be removed from the National Registry. This action is in response to section 4116 of Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users.

**Popular Title:** Commercial Learner's Permit

**RIN 2126-AB02**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 4/9/2008 ;End of Comment Period 6/9/2008; End of Extended Comment Period 7/9/2008.

**Abstract:** This rulemaking would establish revisions to the commercial driver's license knowledge and skills testing standards as required by section 4019 of TEA-21, implement fraud detection and prevention initiatives at the State driver licensing agencies as required by the SAFE Port Act of 2006, and establish new minimum Federal standards for States to issue commercial learner's permits (CLPs), based in part on the requirements of section 4122 of SAFETEA-LU. In addition, to ensuring the applicant has the appropriate knowledge and skills to operate a commercial motor vehicle, this rule would establish the minimum information that must be on the CLP document and the electronic driver's record. The rule would also establish maximum issuance and renewal periods, establish a minimum age limit, address issues related to a driver's State of Domicile, and incorporate previous regulatory guidance into the Federal regulations. This rule would also address issues raised in the SAFE Port Act.

**Effects:**

- Regulatory Flexibility Act
- Federalism
- Information Collection

Federal Motor Carrier Safety Administration

39. **Carrier Safety Fitness Determination** Red

**Popular Title:** CSA 2010 Carrier Safety Fitness Determination

**RIN 2126-AB11**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would revise 49 CFR Part 385, Safety Fitness Procedures, in accordance with the Agency's major new initiative, Comprehensive Safety Analysis (CSA) 2010. CSA 2010 is a new operational model FMCSA plans to implement that is designed to help the Agency carry out its compliance and enforcement programs more efficiently and effectively. Currently, the safety fitness rating of a motor carrier is determined based on the results of a very labor intensive compliance review conducted at the carrier's place of business. Aside from roadside inspections and new audits, the compliance review is the Agency's primary intervention. Under CSA 2010, FMCSA would propose to implement a broader array of progressive interventions, some of which allow FMCSA to make contact with more carriers. Through this rulemaking FMCSA would establish safety fitness determinations based on safety data consisting of crashes, inspections, and violation history rather than the standard compliance review. This will enable the Agency to assess the safety performance of a greater segment of the motor carrier industry with the goal of further reducing large truck and bus crashes and fatalities.

Federal Motor Carrier Safety Administration

41.	<b>CMV Driver Positive Controlled Substances and Alcohol Test Results Database</b>	Green
-----	--	-------

**Popular Title:** CMV Driver Drug Testing Database

**RIN 2126-AB18**

**Stage:** NPRM

**Previous Stage:** None

**Abstract:** This rulemaking would create a central database for verified positive controlled substances and alcohol test results and refusals to submit to testing. This rulemaking would require employers and service agents to report positive test results and refusals to test into the database. Prospective employers, acting on an application for a driver position with the applicant's written consent to access the database, would query the database to determine if any specific information about the specific driver applicant is in the database before allowing the applicant to be hired and to drive CMVs. This rulemaking is intended to increase highway safety by ensuring CMV drivers, who have tested positive or have refused to submit to testing, have completed the U.S. DOT's return-to-duty process before driving CMVs.

Federal Railroad Administration

42. **Roadway Worker Protection; Adjacent-Track On-Track Safety** Red

**Popular Title:** Roadway Worker Protection; Adjacent-Track On-Track

**RIN 2130-AB96**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would simplify the determination regarding whether or not adjacent track protection is required for roadway work groups engaged in large-scale maintenance or construction, pursuant to 49 CFR Part 214. The recent increase in roadway worker fatalities that have occurred on adjacent track has caused some concern at FRA and throughout the industry, even prompting the filing of a petition for emergency order. FRA issued a notice of safety advisory to address the issue in May of 2004; however, it appears that the effects were not long-lasting. This rulemaking is based on the consensus language developed through the Roadway Worker Protection (RWP) Working Group of FRA's Railroad Safety Advisory Committee (RSAC).

Federal Railroad Administration

43. **Safety Appliance Standards, Miscellaneous Revisions** Red

**Popular Title:** Safety Appliance Standards, Miscellaneous Revision

**RIN 2130-AB97**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would revise the Federal Railroad Administration's Safety Appliance regulations in 49 CFR part 231 to provide greater flexibility to the industry in creating new car designs while also advancing the safety of those persons who are engaged in activities requiring them to work on and around safety appliance apparatuses. FRA would add a process to the Safety Appliance regulations that would allow an alternative method of compliance. Under this process, railroad industry representatives could submit requests for special approval to build new rail cars in accordance with existing industry safety appliance standards. This rulemaking's designation was upgraded to significant by OMB.

**Effects:**

National Highway Traffic Safety Administration

50. **Ejection Mitigation**

Red

**Popular Title:** Ejection Mitigation

**RIN 2127-AK23**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would create a new Federal Motor Vehicle Safety Standard (FMVSS) for reducing occupant ejection. Currently, there are over 52,000 annual ejections in motor vehicle crashes, and over 10,000 ejected fatalities per year. This rulemaking would propose new requirements for reducing occupant ejection through passenger vehicle side windows. The requirement would be an occupant containment requirement on the amount of allowable excursion through passenger vehicle side windows. The SAFETEA-LU legislation requires that: "[t]he Secretary shall also initiate a rulemaking proceeding to establish performance standards to reduce complete and partial ejections of vehicle occupants from outboard seating positions. In formulating the standards the Secretary shall consider various ejection mitigation systems. The Secretary shall issue a final rule under this paragraph no later than October 1, 2009."

**Popular Title:** Rearview Mirrors

**RIN 2127-AK43**

**Stage:** NPRM

**Previous Stage:** ANPRM: Publication Date 03/04/09; End of Comment Period 05/04/09

**Abstract:** This rulemaking would amend Federal Motor Vehicle Standard No. 111; Rearview Mirrors, to reflect requirements contained in the Cameron Gulbransen Kids Transportation Safety Act of 2007. The Act requires that NHTSA expand the required field of view to enable the driver of a motor vehicle to detect areas behind the motor vehicle to reduce death and injury resulting from backing incidents, particularly incidents involving small children and disabled persons. According to the Act, such a standard may be met by the provision of additional mirrors, sensors, cameras, or other technology to expand the driver's field of view.

**RIN 2127-AK45**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 06/22/2009; End of Comment Period 8/21/2009.

**Abstract:** This rulemaking would establish a new program that would make information about the relative rolling resistance of tires available to purchasers of replacement tires and educate consumers about the effect of tires on automobile fuel efficiency, safety, and durability. The agency is required by the Energy Independence and Security Act of 2007 to establish a national tire fuel efficiency consumer information program for replacement tires designed for use on motor vehicles. Vehicle manufacturers often use low rolling resistance tires on new vehicles to help meet CAFE goals. This rulemaking is significant because it has a statutory mandate and it relates to fuel efficiency.

**Popular Title:** CARS Amendment

**RIN 2127-AK54**

**Stage:** Final Rule

**Previous Stage:**None

**Abstract:** This final rule amends the regulation implementing the Consumer Assistance to Recycle and Save (CARS) Program, published on July 29, 2009 (74 FR 37878), under the CARS Act (Pub. L. 111-32). The rule clarifies the insurance eligibility requirements for trade-in vehicles under the CARS program. The rule makes substantive changes and a conforming amendment related to the timing for disabling trade-in vehicle engines. The rule also makes a technical amendment related to the requirements and procedures for identifying salvage auctions and disposal facilities. Finally, NHTSA provides a clarification related to the insurance requirement under the CARS Act.

**Popular Title:** Seat Belts on Motorcoaches

**RIN 2127-AK56**

**Stage:** NPRM

**Previous Stage:**None

**Abstract:** This rulemaking would require the installation of lap/shoulder belts in newly-manufactured motorcoaches. Specifically, this rulemaking would establish a new definition for motorcoaches in 49 CFR Part 571.3. It would also amend Federal Motor Vehicle Safety Standard No. 208, "Occupant crash protection," to require the installation of lap/shoulder belts at all driver and passenger seating positions. It would also require the installation of lap/shoulder belts at driver seating positions of large school buses in FMVSS No. 208. This rulemaking responds, in part, to recommendations made by the National Transportation Safety Board for improving bus safety.

**Popular Title:** Accessibility-passenger vessels

**RIN 2105-AB87**

**Stage:** Final Rule

**Previous Stage:** ANPRM: Publication Date 11/29/2004;End of Comment Period 03/28/2005;Publication Date for Extension of Comment Period 03/28/2005;End of Extended Comment Period 07/28/2005. NPRM: Publication Date 1/23/2007; End of Comment Period 4/23/2007; Extension of Comment Period 4/13/2007; End of Extended Comment Period 6/22/2007; Reopening of Comment Period 4/8/2006; End of Reopened Comment Period 4/23/2008.

**Abstract:** The Department's Americans with Disabilities Act (ADA) final rule, published September 6, 1991, reserved portions of the rule concerning passenger vessels. The ADA covers passenger vessels, but issuing accessibility requirements for vessels involves complex issues unlike those affecting land transportation. This rulemaking would address these issues and propose feasible requirements to make passenger vessels accessible to, and usable by, individuals with disabilities.

63. **Hazardous Materials: Requirements for Storage of Explosives During Transportation** Red

**Popular Title:** Storage of Explosives

**RIN 2137-AE06**

**Stage:** NPRM

**Previous Stage:** ANPRM: Publication Date 11/16/2005; End of Comment Period 02/14/2006; Reopening of Comment Period 7/03/2008; End of Reopened Comment Period 10/01/2008.

**Abstract:** This rulemaking would address the current safety and security risks associated with the storage of explosives during transportation. The Hazardous Materials Regulations (HMR) require shipments stored during transportation to conform to the same requirements that apply when the shipments are actually moving and for the shipping company to have security plans covering its shipments. Otherwise, the HMR do not include specific requirements for facilities at which explosives or other high-hazard materials are stored during transportation. The HMR do not establish specific standards for storage facilities nor do they limit the amount of material that may be stored in a single location. Through this rulemaking, the agency will evaluate the adequacy of existing regulations and the need for additional, more specific requirements. In particular, the agency is considering whether current industry standards applicable to the storage of explosives should be incorporated by reference into the HMR.

**RIN 2137-AE28**

**Stage:** Final Rule

**Previous Stage:** NPRM: Publication Date 09/12/2008;End of Comment Period 11/12/2008

**Abstract:** This rulemaking would require operators of natural gas pipelines, hazardous liquid pipelines, and liquefied natural gas (LNG) facilities, to identify and employ specific procedures to improve control room operations, controller training, and controller qualifications. It would require operators to develop, implement, and submit to PHMSA (or the appropriate State), a human factors management plan designed to reduce risks associated with human factors. This would require operators to include in their plans a maximum limit on the hours of service for individuals employed as controllers. It would also require operators to periodically review their management of computer-based control system alarms and to verify that the control systems provide accurate and timely information to controllers. This rulemaking would further require each operator to validate the implementation of the program elements applicable to their individual control system.

69. **Hazardous Materials: Bulk Loading and Unloading Operations** Red

**Popular Title:** Loading/Unloading

**RIN 2137-AE37**

**Stage:** ANPRM

**Previous Stage:**None

**Abstract:** This rulemaking would request information from industry that would consider whether additional requirements governing bulk loading and unloading operations are necessary. PHMSA has reviewed transportation incident data and findings of several National Transportation Safety Board and Chemical Safety Board accident investigations involving bulk hazardous materials loading and unloading operations, which suggest there may be opportunities to enhance the safety of such operations. In particular, PHMSA is examining what, if any, safety benefits would accrue from a requirement for persons conducting bulk loading and unloading operations to develop and implement operating procedures governing these operations.
