Introduction

The *U.S. International Air Passenger and Freight Statistics* report has been developed to provide the public with additional access to international aviation data. The report is restricted to nonstop commercial traffic traveling between international points and U.S. airports. Global air travel systems comprise complex, ever-changing networks and alliances. The majority of international passengers to and from the U.S. make at least one connection before reaching their final destination. This report represents a limited aspect of international travel - nonstop flows into and out of the U.S. cities that serve as an international gateway will have high numbers in this report, but users should bear in mind that some portion of this traffic continued on a connecting flight to its final destination. Conversely, U.S. carriers serve some international points only through an international connection; therefore it might look as if no U.S. carrier serves a certain international point, when in fact U.S. carrier traffic is first flowing through a connecting city. Figures for U.S. nonstop market share do not necessarily correlate to the total service provided to that point by U.S. carriers.

The widespread use of code-share agreements also influences this data. Under a code-share agreement, it is common for a passenger or cargo to fly on an aircraft owned and operated by a different airline than the one from which they bought their ticket. The data in this report represents the air carrier that operated the passenger or cargo flight reported. In some cases, such as U.S. to China, regulatory impediments make it difficult for U.S. domestic carriers to operate adequate service using their own equipment. U.S. carriers compensate by marketing and selling tickets under their own code to those destinations, and then arranging for a foreign code-share partner to actually transport the passengers. Therefore, low U.S. market share in certain restricted markets is not indicative of the true proportion of passengers purchasing U.S. carrier tickets, but rather is representative of the carrier that actually transported them. Code-sharing and network-flow data issues also apply to cargo shipments.

The data in this report is presented in a top-down format. Table 1 provides gross summaries of U.S.-international passengers, capacity, and freight. The same data is then broken down by world area and by country in Tables 2 through 5. Scheduled passenger data for the largest domestic gateway cities, the largest foreign gateway cities, and the largest U.S.-international airport-pairs can be found in Tables 6, 7, and 8. All data is derived from the T-100 Segment reports submitted to the Department by U.S. and foreign carriers.

The T-100 program was instituted by the Department of Transportation effective January 1, 1990. It covers traffic reports of foreign airlines operating to the United States and traffic reports of the domestic and international operations of U.S. airlines. The airlines submit these reports monthly to the Department's Office of Airline Information (OAI) of the Bureau of Transportation Statistics. The rules governing disclosure of the International T-100 data require that the data be kept confidential for a period of six months beyond the reporting date.

Users of this report should take the following points into consideration:

- The T-100 segment data includes all traffic arriving at U.S. airports and departing from U.S. airports on nonstop commercial international flights.
- Prior to October 1st 2002, air carriers that operated aircraft with 60 seats or less were not required to file T-100 data. Therefore prior to October 1st 2002, passenger volume in particular markets—

particularly the Caribbean and certain Canadian markets – had been understated in this report due to the large amount of service provided by small aircraft.

- T-100 data represents only nonstop service. The absence of U.S. nonstop service, or a low U.S. flag market share, does not necessarily correlate to the amount of service provided to that point by U.S. carriers. Many international destinations are served by U.S. carriers via connecting points. Those not heavily served on a nonstop basis are underrepresented in this report.
- Conversely, traffic on U.S.-international routes that serve as connecting gateways will exceed the number of true Origin & Destination passengers on the route because of the high percentage of traffic connecting through the gateway.
- Code-share relationships may cause U.S. carriers to seem under-represented in certain restrictive markets. This data is reported according to the operating carrier. In extensive code-share relationships (particularly to certain Asian countries) U.S. airlines sell a large number of tickets to passengers and then provide transport through the foreign code-share partner.
- Cargo carriers also employ the use of networks and code-share arrangements; therefore, cargo data is susceptible to the same reporting shortcomings in this report as passenger data.
- Freight tons do not include mail.
- The T100 dataset is dynamic and subject to edits and updates. The data in this report represent a snapshot of the T100 segment on the day the report tables are generated. This report will contain most recent data for the current month and previous 35 months.

This report is available on the Internet at <https://www.transportation.gov/policy/aviation-policy/us-international-air-passenger-and-freight-statistics-report>. More extensive International T-100 data is also posted at this location in a downloadable format. Questions and comments should be directed to Mark Raggio, Office of Aviation Analysis, Office of the Secretary, at (202) 366-5903.

Summary for the Month of June 2015 and Year-Ended June 2015

U.S.-International Passengers YE June 2015

U.S. and foreign air carriers transported 196.3 million passengers between the United States and the rest of the world for the year-ended June 2015, up 5% from the same 12 month period a year earlier. U.S. flag market share decreased from a 53% share to 51%.

For the 12 months ended June 2015, available seats into and out of the United States were 246.7 million, representing a 6% increase from the preceding 12 month period. The market share of seats for U.S. flag carriers declined to 51.6% from 53%, and U.S. carriers performed 59% of all departures. Flights into and out of the United States were 1.6 million for the year-ended June 2015, representing an increase of 3% from the preceding 12 month period..

U.S.-International Seats YE June 2015

U.S.-International Freight YE June 2015

U.S. and foreign airlines carried 10.1 million freight tons to and from the United States during the 12 months ended June 2015, representing a 6% increase from the preceding 12 month period. U.S. flag share declined from 44% to 43.6%.

Passenger Traffic

Air passenger traffic between the U.S. and the rest of the world during the month of June 2015 increased 5% from June 2014 to 18,540,417 passengers. U.S. airlines carried 52% of total passengers traveling to or from international destinations. U.S. and foreign charter passengers accounted for 1.2% of international travel.

The largest U.S.-international regional gateway was the United States to Europe, where 56.3 million passengers were transported during the year-ended June 2015. Europe is followed by Central America with 33.7 million passengers and the Far East with 28.8 million passengers. Combined, this accounts for 60.5% of all passenger traffic to and from the United States. The preceding 12 month period for the same regions was 60.9%.

Country Trends

The top five U.S.-international country passenger gateways for the year-ended June 2015 were Canada, Mexico, the United Kingdom, Japan, and Germany. Of the top 25 country markets, 22 posted a positive passenger growth rate during this period, and two experienced a loss in passenger traffic, with one market showing flat growth. U.S. flag share was up in nine of the top 25 country markets, unchanged in three country markets, and decreased in the remaining 13 country markets.

Gateway Trends

The top five domestic scheduled passenger gateway airports for the year-ended June 2015 were New York, NY (JFK), Miami, FL (MIA), Los Angeles, CA (LAX), New York, NY (JFK), and Chicago, IL (ORD). Load factors were 80% or higher in 24 of the top 40 domestic gateway airports. Load factors were at or below 65% in one of the top 40 domestic gateway airports. During this time period, 30 of the top 40 domestic gateway airports experienced year-over-year passenger growth, and five markets experienced negative growth.

The top five foreign scheduled passengers gateways for the year-ended June 2015 were London, United Kingdom (LHR), Toronto, Canada (YYZ), Tokyo, Japan (NRT), Cancun, Mexico (CUN), and Frankfurt, Germany (FRA). During this period, 30 international gateways recorded a load factor of 80% or higher, no international gateways with a load factor at or below 65%, and 29 gateways showing positive year-over-year growth. The top 5 U.S.-international gateways segments were New York (JFK) to London (LHR), Los Angeles (LAX) to London (LHR), Honolulu (HNL) to Tokyo (NRT), New York (JFK) to Paris (CDG), and New York (LGA) to Toronto (YYZ), representing 19% of the total top 40 international gateway passengers.

Departures and Seat Capacity

Departures between the U.S. and the rest of the world for the month of June 2015 were up 1% compared to June 2014, while seats increased 5% over the same period. U.S. airlines provided 52% of international seats and 59% of departures. Charter service for all airlines accounted for 2% of international seats and 3% of international departures.

For the year-ended June 2015, departures increased by 3% to 1.60 million, while seats increased 6% over the same period. U.S. airlines provided 51% of the seats, compared to 53% the previous year. Charter service for all airlines accounted for 2% of international seats and 3% of international departures.

World Area Trends

For the year-ended June 2015, eight of the nine world area regions recorded an increase in annual seat capacity. The Middle East region reported the largest relative increase in available seats to and from the U.S., rising 26% to 10.9 million, while Africa had a decline of 2% to 1.9 million seats. The U.S.-Europe market is the largest by seat share, with 69.3 million, or 28% of the total seats, and grew 5% over the preceding 12 month period.

Country Trends

The top five U.S.-international country gateways for seat capacity for the year-ended June 2015 were Canada, Mexico, the United Kingdom, Japan, and Germany. Of the top 25 U.S.-international countries, two posted negative growth rates. U.S. flag share was down in 13 of the 25 country markets, was unchanged in three country markets, and increased in the remaining nine country markets.

Freight Traffic

Air freight between the U.S. and the rest of the world in the month of June 2015 decreased 5% from May 2015 to 800,324 tons. U.S. airlines carried 44% of the total freight to and from international destinations. Charter service accounted for 14% of international freight traffic.

For the year-ended June 2015, U.S.-world airfreight increased 6% over the preceding 12 month period to 10.1 million tons. U.S. airlines carried 43% of total freight, compared to 44% the previous year.

World Area Trends

The Middle East experienced the greatest relative increase in nonstop freight shipment to and from the U.S. for the year-ended June 2015, rising 28% over the preceding 12 month period. The Far East posted the second largest increase, up 9%. With 3.9 million tons transported during this time period, the Far East is the largest U.S.-international freight gateway, representing 38% of all U.S.-international freight traffic. Of the nine regions, two posted year-over-year losses, with Central America slipping 3% to 643,436 tons, and South America losing 2% to 1.4 million tons, combined representing 20% of all U.S.-international freight traffic.

Country Trends

The top five U.S.-international country gateways for freight during the year-ended June 2015 were Japan, South Korea, Germany, Hong Kong, and the United Kingdom. Of the top 25 country markets, 19 posted positive freight growth rates for this time period. Of the six country markets posting declines, Taiwan had the highest loss rate, down 16% from the preceding 12 month period. U.S. flag share was down in seven of the 25 country markets, unchanged in four country markets, and increased in the remaining eight country markets.
