Introduction

The *U.S. International Air Passenger and Freight Statistics* report has been developed to provide the public with additional access to international aviation data. The report is restricted to nonstop commercial traffic traveling between international points and U.S. airports. Global air travel systems comprise complex, ever-changing networks and alliances. The majority of international passengers to and from the U.S. make at least one connection before reaching their final destination. This report represents a limited aspect of international travel - nonstop flows into and out of the U.S. cities that serve as an international gateway will have high numbers in this report, but users should bear in mind that some portion of this traffic continued on a connecting flight to its final destination. Conversely, U.S. carriers serve some international points only through an international connection; therefore it might look as if no U.S. carrier serves a certain international point, when in fact U.S. carrier traffic is first flowing through a connecting city. Figures for U.S. nonstop market share do not necessarily correlate to the total service provided to that point by U.S. carriers.

The widespread use of code-share agreements also influences this data. Under a code-share agreement, it is common for a passenger or cargo to fly on an aircraft owned and operated by a different airline than the one from which they bought their ticket. The data in this report represents the air carrier that operated the passenger or cargo flight reported. In some cases, such as U.S. to China, regulatory impediments make it difficult for U.S. domestic carriers to operate adequate service using their own equipment. U.S. carriers compensate by marketing and selling tickets under their own code to those destinations, and then arranging for a foreign code-share partner to actually transport the passengers. Therefore, low U.S. market share in certain restricted markets is not indicative of the true proportion of passengers purchasing U.S. carrier tickets, but rather is representative of the carrier that actually transported them. Code-sharing and network-flow data issues also apply to cargo shipments.

The data in this report is presented in a top-down format. Table 1 provides gross summaries of U.S.-international passengers, capacity, and freight. The same data is then broken down by world area and by country in Tables 2 through 5. Scheduled passenger data for the largest domestic gateway cities, the largest foreign gateway cities, and the largest U.S.-international airport-pairs can be found in Tables 6, 7, and 8. All data is derived from the T-100 Segment reports submitted to the Department by U.S. and foreign carriers.

The T-100 program was instituted by the Department of Transportation effective January 1, 1990. It covers traffic reports of foreign airlines operating to the United States and traffic reports of the domestic and international operations of U.S. airlines. The airlines submit these reports monthly to the Department's Office of Airline Information (OAI) of the Bureau of Transportation Statistics. The rules governing disclosure of the International T-100 data require that the data be kept confidential for a period of six months beyond the reporting date.

Users of this report should take the following points into consideration:

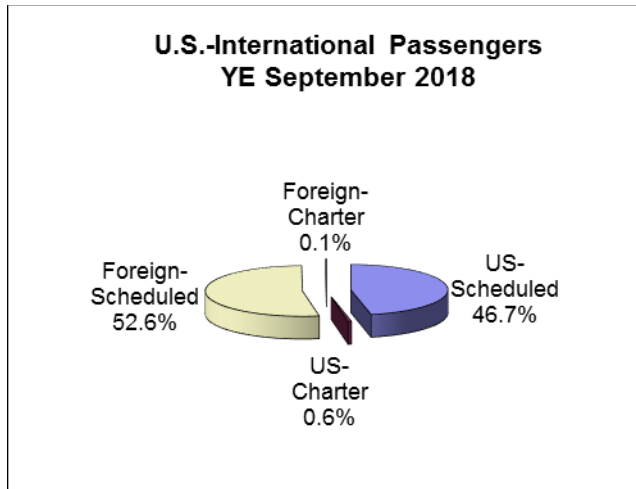

- The T-100 segment data includes all traffic arriving at U.S. airports and departing from U.S. airports on nonstop commercial international flights.
- Prior to October 1st 2002, air carriers that operated aircraft with 60 seats or less were not required to file T-100 data. Therefore prior to October 1st 2002, passenger volume in particular markets—

particularly the Caribbean and certain Canadian markets – had been understated in this report due to the large amount of service provided by small aircraft.

- T-100 data represents only nonstop service. The absence of U.S. nonstop service, or a low U.S. flag market share, does not necessarily correlate to the amount of service provided to that point by U.S. carriers. Many international destinations are served by U.S. carriers via connecting points. Those not heavily served on a nonstop basis are underrepresented in this report.
- Conversely, traffic on U.S.-international routes that serve as connecting gateways will exceed the number of true Origin & Destination passengers on the route because of the high percentage of traffic connecting through the gateway.
- Code-share relationships may cause U.S. carriers to seem under-represented in certain restrictive markets. This data is reported according to the operating carrier. In extensive code-share relationships (particularly to certain Asian countries) U.S. airlines sell a large number of tickets to passengers and then provide transport through the foreign code-share partner.
- Cargo carriers also employ the use of networks and code-share arrangements; therefore, cargo data is susceptible to the same reporting shortcomings in this report as passenger data.
- Freight tons do not include mail.
- The T100 dataset is dynamic and subject to edits and updates. The data in this report represent a snapshot of the T100 segment on the day the report tables are generated. This report will contain most recent data for the current month and previous 35 months.

This report is available on the Internet at <https://www.transportation.gov/policy/aviation-policy/us-international-air-passenger-and-freight-statistics-report>. More extensive International T-100 data is also posted at this location in a downloadable format. Questions and comments should be directed to Jason Horner, Office of Aviation Analysis, Office of the Secretary, at (202) 366-2107.

Summary for the Month of September 2018 and Year-Ended September 2018

U.S. and foreign air carriers transported 235.6 million passengers between the United States and the rest of the world for the year-ended September 2018, up 5% from the same 12 month period a year earlier. U.S. flag market share decreased 1% to 47% versus the preceding 12-month period.

For the 12 months ended September 2018, available seats into and out of the United States were 291.0 million, representing a 4% increase from the preceding 12-month period. U.S. flag carrier share of seats decreased 1% to 47% versus the preceding 12-month period and U.S. carriers performed 53% of all departures. Flights into and out of the United States were 1.8 million for the year-ended September 2018, representing an increase of 3% from the preceding 12-month period.

U.S. and foreign airlines carried 11.8 million freight tons to and from the United States during the 12 months ended September 2018, representing an 8% increase from the preceding 12-month period. U.S. flag carriers share remained constant at 44% versus the prior year period.

Passenger Traffic

Air passenger traffic between the U.S. and the rest of the world during the month of September 2018 increased 6% from September 2017 to 18,888,051 passengers. U.S. airlines carried 44% of total passengers traveling to or from international destinations. U.S. and foreign charter passengers accounted for 0.32% of international travel.

The largest U.S.-international regional gateway was the United States to Europe, where 69.1 million passengers were transported during the year-ended September 2018. Europe is followed by Central America with 42.3 million passengers and the Far East with 35.0 million passengers. Combined, this accounts for 62% of all passenger traffic to and from the United States, the same as for the preceding 12-month period for the same regions.

Country Trends

The top five U.S.-international country passenger gateways for the year-ended September 2018 were Canada, Mexico, the United Kingdom, Japan, and Germany. Of the top 25 country markets, 21 experienced increases in passenger traffic during this period and four experienced a loss in traffic. U.S. flag share was up in seven of the top 25 country markets, unchanged in six countries, and decreased in the remaining 12 country markets.

Gateway Trends

The top five domestic scheduled passenger gateway airports for the year-ended September 2018 were New York, NY (JFK), Los Angeles, CA (LAX), Miami, FL (MIA), San Francisco, CA (SFO), and Chicago, IL (ORD). Load factors were 80% or higher in 29 of the top 40 domestic gateway airports. During this time period, 36 of the top 40 domestic gateway airports experienced year-over-year passenger growth and four markets lost traffic.

The top five foreign scheduled passenger gateways for the year-ended September 2018 were London, United Kingdom (LHR), Toronto, Canada (YYZ), Cancun, Mexico (CUN), Mexico City, Mexico (MEX), and Paris, France (CDG). During this period, 35 international gateways recorded a load factor of 80% or higher and 34 gateways showed positive year-over-year growth. The top 5 U.S.-international gateway segments were New York (JFK) to London (LHR), Los Angeles (LAX) to London (LHR), Honolulu (HNL) to Tokyo (NRT), New York (LGA) to Toronto (YYZ), and New York (JFK) to Paris (CDG), representing 22% of the total top 40 international gateway passengers.

Departures and Seat Capacity

Departures between the U.S. and the rest of the world for the month of September 2018 were up 10% compared to September 2017, while seats increased 7% over the same period. U.S. airlines provided 44% of international seats and 50% of departures. Charter service for all airlines accounted for .44% of international seats and 4.8% of international departures.

For the year-ended September 2018, departures increased by 3% to 1.8 million, while seats increased 4% to 291.0 million over the same period. U.S. airlines provided 47% of the seats, down 1% from the prior year period. Charter service for all airlines accounted for 1.0% of international seats and 3.3% of international departures.

World Area Trends

For the year-ended September 2018, eight of the nine world area regions recorded an increase in annual seat capacity. Africa registered the largest increase in relative seat capacity, growing at 8% in the period. The U.S.-Europe market is the largest by seat share, with 84.6 million, or 29.1 % of the total seats, and grew 6% over the preceding 12-month period.

Country Trends

The top five U.S.-international country gateways for seat capacity for the year-ended September 2018 were Mexico, Canada, the United Kingdom, Japan, and Germany. Of the top 25 U.S.-international countries, six posted negative growth rates and 19 experienced seat count growth. U.S. flag share was down in 13 of the 25 country markets, unchanged in six and increased in the remaining six country markets.

Freight Traffic

Air freight between the U.S. and the rest of the world in the month of September 2018 increased 5% from September 2017 to 989,731 tons. U.S. airlines carried 45% of the total freight to and from international destinations. Charter service accounted for 16% of international freight traffic.

For the year-ended September 2018, U.S.-world airfreight increased 8% over the preceding 12-month period to 11.8 million tons. U.S. airlines carried 44% of total freight, unchanged from the preceding 12-month period.

World Area Trends

Africa experienced the greatest relative increase in nonstop freight shipments to and from the U.S. for the year-ended September 2018, rising 13% over the preceding 12-month period. With 4.7 million tons transported during this time period, the Far East is the largest U.S.-international freight gateway, representing 40% of all U.S.-international freight traffic. All nine regions saw year-over-year freight traffic growth.

Country Trends

The top five U.S.-international country gateways for freight for the year-ended September 2018 were China, Japan, Hong Kong, the United Kingdom, and Germany. Of the top 25 country markets, 20 posted positive freight growth rates and five country markets declined during this period. Of the five country markets posting declines, the United Arab Emirates and Colombia had the highest relative loss rates, down six percent from the preceding 12-month period. U.S. flag share was down in 13 of the 25 country markets, unchanged in four country markets, and increased in the remaining eight country markets.

1/ Due to extensive code-sharing agreements, passenger and cargo data for U.S. carriers presented in this table might understate U.S. carrier presence in certain markets. Please see the report's introduction for further details.

2/ Ranked in descending order according to YE 2018 September data.
