

NEW use of EDIPI on TRANServe web application

- The EDIPI is now being used on your transit application (formerly the “Identifier”). See below.
- No longer using last four SSN (considered PII).
- Effective immediately for Air Force members applying for transit benefits for the first time.
- Current participants will update during next recertification (in 2021) or may do so if making a change/update to current application.

The screenshot shows the 'Transit Benefit Program Application' form. A blue arrow points from the *EDIPI: field to a help popup window. The popup window has a blue header with the text 'What do I type here? (USAF-REG-ACTIVE)' and a close button. The main content of the popup shows 'Ten digit EDIPI from CAC card' circled in red. A 'Close' button is in the bottom right corner of the popup.
